

# Low-Profile X Axis Steel Translation Stages

Stage Size 40 × 40 mm / 60 × 60 mm

TSDT-401/601

RoHS

Ultra thin steel stages (10mm) provide high stiffness and load capacity in a very low profile. Stage heights are 40% lower and the overall weight is 35% lighter than standard TSD stages.

- Opposed locking clamp to maximize locking strength.
- Low-profile is ideal for assembling into systems with limited space or optical applications that require low beam heights.

## Guide

- ▶ The part number suffix FP indicates products with fine-pitch screws instead of standard micrometers.
- ▶ Fine Pitch screws have a screw pitch of 0.25mm and require a hex wrench or the optional hex wrench with knob (KCL) for adjustment.
